SLATHER ON THE SUNSCREEN AND GET OUTSIDE

FUN WITH FERMENTATION

Looking for something new to try with your summer produce? Give fermenting a shot! Fermentation happens when microbes change a food's properties. Yummies like kimchi, sauerkraut and yogurt are all fermented. Learn more from the [National Center for Home Food Preservation](#) and then check out these books for more recipes: *Fermented Vegetables: Creative Recipes for Fermenting 64 Vegetables & Herbs* by Kirsten Shockey and *Fermented: a Beginner's Guide* by Charlotte Pike.

SUMMER SENSATIONS

Summer is a season of sensations: cooling water, hot sun, that suntan lotion scent, a perfectly ripe watermelon, the sound of birds and waves. But reading can be an experience where you can engage all your senses too! Find out more in this BookRiot article, [An Immersive Experience: How I Read with All My Senses](#) by Claire Handscombe.
